LUXE LIVING

ESCAPE TO YOUR BACKYARD

Today's outdoor spaces are more dynamic than ever, designed to complement the way you live and your aesthetic.

Whether it be a chic lounge area for entertaining, a green-filled hideaway that amplifies your connection with nature, or a clean & minimal space for family fun the Outdoor Roomscape is your gateway to paradise at home.

LEFT: DUBLIN COBBLE IN SEDONA & CELTIK CAPS IN SIERRA

ABOVE: MIRAGE VERONA PORCELAIN PAVER IN PLATINUM

Bring together natural aesthetics with a modern feel. The irregular edge of the plank pavers allows for a modern twist on biophilic design.

DO MORE WITH LESS

Design doesn't have to be loud to make a big impact. The "less is more" philosophy sharpens the focus on what really matters in your design.

A backyard with a view needs only two chairs by the fire to complete a rustic design that coincides with nature.

Using a pop of color around your front walkway, like a bright colored door, is a little change that adds big curb appeal.

Keeping landscaping simple not only reduces the amount of time a homeowner spends on yardwork but also places focus on their investment.

ENTANGLEMENT WITH NATURE

In the ever-expanding age of technology, many rising trends center on the health benefits of incorporating design elements that help keep us connected with the natural world. This can be done both texturally and by integrating organic elements like water, fire, wood or plant life into the hardscape design.

LIVE LIFE IN COLOR

INTRODUCING BELGARD'S COLOR OF THE YEAR

Accents of **Terrarium** complement the full range of Belgard colorations — whether on an urban rooftop or at a rural retreat, a suburban backyard or a seaside terrace. Signifying growth, vitality, and renewal, hints of this green in accents and decor help create your biophilic paradise at home.

RETREAT

When you step into the HGTV® Dream Home 2020, you're on "island time." Set on the South Carolina Lowcountry of Hilton Head Island, the shady pines and proximity to the sea played as inspiration for the exterior with coastal blues, rustic browns and sandy tans.

Designed to embrace the marsh front backdrop, the home offers an abundance of outdoor living space. The expansive backyard boasts marshland views with all the splendor of a Gatsby soiree.

The background features a series of concentric circles and dashed lines. A solid dark gray circle is the outermost, followed by a dashed dark gray circle, and then a solid light gray circle. There are also several dashed light gray circles. Various geometric shapes like dots, squares, and arrows are scattered around, some connected by thin lines, creating a technical or architectural feel.

**HOW TO
CARE
FOR YOUR
PAVERS**

MADE *for* LIFE OUTSIDE

EFFLORESCENCE

[ef-luh-res-uh ns] *noun*

1. a white haze created by a chemical reaction that occurs when the lime or water soluble calcium oxide produced by cement reacts with water.
2. a natural, reversible byproduct of hardened concrete.

If efflorescence does occur, it can be removed with cleaners specially made for concrete pavers.

Careless or improper cleaning can result in damage and discoloration to the concrete paver surfaces. Contact your Belgard dealer or contractor for further information about appropriate, commercially available cleaners.

FOR BEST RESULTS, WAIT 60* DAYS BEFORE SEALING TO ALLOW THIS PROCESS TO OCCUR.

ROUTINE CLEANING

1. Use a stiff bristle broom and garden hose to scrub and clean the pavers.
2. **HIGH TRAFFIC ZONES** Add in some detergent to the water mix to dislodge dirt from the surface.
3. Scrub with push broom and rinse with garden hose.

REMOVING OIL STAINS

1. Wipe excess oil from the surface and apply liquid detergent as soon as possible.
2. Allow it to soak for several minutes, then wash with hot water.

Several treatments may be necessary for particularly stubborn stains.

Cleaners specially made for removing oil stains from concrete pavers are recommended.

PREVENTING WEEDS & ANTS

YOU'VE GOT OPTIONS

1. Remove by hand or with herbicides.

Use with care so that adjacent vegetated areas are not damaged opt for a biodegradable product that won't damage other vegetation or pollute water supplies

2. Apply a sealer over the entire paver surface and let cure.

SNOW & ICE REMOVAL

Concrete pavers offer outstanding freeze-thaw resistance.

1. Shovels or Plows
2. Electric or liquid snow-melting systems under concrete pavers.

Ask your Belgard dealer or contractor about Snow-melting Systems for Interlocking Concrete Pavements.
